

Thank you to everyone who participated in the Polco survey of baseline questions for the month of September. Baseline questions are sent out each month and repeated twice a year. These same questions are asked in communities throughout the country and allow us to compare our information to others.

Below is a summary of the poll results. To see the complete report, visit <https://polco.us/groups/city/sequim-wa> and click on the *Results* tab. Click on *Learn more about this* and *View Results* on each question to see the full report including comments.

Is there an adequate supply of different housing types in the community?

All respondents (295)

Registered Voters in Sequim, WA (213)
