Good morning everyone!

We are putting together the meeting packet for our OCH 3CCORP Treatment Workgroup meeting next Tuesday. Please let us know if you have agenda items. I've attached the draft meeting notes from our April 12 meeting for your information. If you could have agenda items to me by COB tomorrow, June 11, that would be great.

Thank you!

To: Jeff Arango <jeff@weareframework.com>
Subject: Major Development - South Sequim

Jeff,

Just to keep you up to date on what is going on. The Jamestown S'Klallam Tribe is pursuing a project in the western EOA to develop property (Parcel Numbers 03301933000 and 043024440075) into a day clinic for opioid dependency (250 outpatients per day) and a later phase of adding a 16 bed treatment facility. If you look at the GIS data, the properties are located south and southeast of Costco, bordered by the Hammond alignment to the north, 9th Avenue to the west, highway 101 to the south and a housing subdivision that fronts on 7th Avenue to the east.

The facilities will be single story and there will be surface parking. However, a traffic study will be required, and the Tribe is describing an operational model that will comprise of a mix of drive-up patients and bussed-in patients for daily suboxone dosing, that occurs early in the am to 2 pm in the afternoon.

The project has gotten some press and is starting to generate interest, including neighborhood interest.

We had a pre-pre application meeting with the Tribe and their design team yesterday to talk generalities. The design team is headed by Greg Belding and Suzanne Pontecorvo of Rice Fergus Miller Architects.

I indicated to them that they would have to at the very least, dedicate 30' of right of way along their north border, which is at the "latitude" of Hammond Street.

I wish I had more visuals to share, but the project is still in the early planning stages.

Thanks,

Dave

From: Dave Nakagawara
Sent: Friday, June 28, 2019 8:52 AM
To: Jeff Arango
Subject: Major Development - South Sequim

Jeff,

Just to keep you up to date on what is going on. The Jamestown S’Klallam Tribe is pursuing a project in the western EOA to develop property (Parcel Numbers 03301933000 and 043024440075) into a day clinic for opioid dependency (250 outpatients per day) and a later phase of adding a 16 bed treatment facility. If you look at the GIS data, the properties are located south and southeast of Costco, bordered by the Hammond alignment to the north, 9th Avenue to the west, highway 101 to the south and a housing subdivision that fronts on 7th Avenue to the east.

The facilities will be single story and there will be surface parking. However, a traffic study will be required, and the Tribe is describing an operational model that will comprise of a mix of drive-up patients and bussed-in patients for daily suboxone dosing, that occurs early in the am to 2 pm in the afternoon.

The project has gotten some press and is starting to generate interest, including neighborhood interest.

We had a pre-pre application meeting with the Tribe and their design team yesterday to talk generalities. The design team is headed by Greg Belding and Suzanne Pontecorvo of Rice Fergus Miller Architects.

I indicated to them that they would have to at the very least, dedicate 30’ of right of way along their north border, which is at the “latitude” of Hammond Street.

I wish I had more visuals to share, but the project is still in the early planning stages.

Thanks,

Dave

Subject: RE: 3CCORP Treatment workgroup meeting

Attachments:

3CCORP TX WG packet_20190619.pdf

This time with the packet – apologies for the multiple emails.

Thank you,
Lisa

On behalf of your co-chairs please find the meeting packet for the OCH 3CCORP Treatment workgroup next Wednesday June 19. The packet is small because three of the documents we will be referring to are large; the links to them are in the agenda and here:

- Link to SAMHSA TIP 63 <https://store.samhsa.gov/product/TIP-63-Medications-for-Opioid-Use-Disorder-Full-Documents-Including-Executive-Summary-and-Parts-1-5-/SMA18-5063FULLDOC>
- Link to Bree Report and Recommendations <http://www.breecollaborative.org/topic-areas/previous-topics/oud-treatment/>
- Link to HCA guide for Sharing SUD Information <https://www.hca.wa.gov/assets/billers-and-providers/60-0015-sharing-substance-use-disorder-information-guide.pdf>

Please take a look at them prior to the meeting if possible.

Thank you!

G’Nell Ashley, Bergen Starke, Lisa Rey Thomas

Subject: RE: 3CCORP Treatment workgroup meeting

Good morning everyone,

On behalf of your co-chairs please find the meeting packet for the OCH 3CCORP Treatment workgroup next Wednesday June 19. The packet is small because three of the documents we will be referring to are large; the links to them are in the agenda and here:

- Link to SAMHSA TIP 63 <https://store.samhsa.gov/product/TIP-63-Medications-for-Opioid-Use-Disorder-Full-Documents-Including-Executive-Summary-and-Parts-1-5-/SMA18-5063FULLDOC>
- Link to Bree Report and Recommendations <http://www.breecollaborative.org/topic-areas/previous-topics/oud-treatment/>
- Link to HCA guide for Sharing SUD Information <https://www.hca.wa.gov/assets/billers-and-providers/60-0015-sharing-substance-use-disorder-information-guide.pdf>

Please take a look at them prior to the meeting if possible.

Thank you!

G'Nell Ashley, Bergen Starke, Lisa Rey Thomas

Lisa Rey Thomas, PhD, *Tlingit*

Opioid Response Project Director

Jeff,

Just to keep you up to date on what is going on. The Jamestown S'Klallam Tribe is pursuing a project in the western EOA to develop property (Parcel Numbers 03301933000 and 043024440075) into a day clinic for opioid dependency (250 outpatients per day) and a later phase of adding a 16 bed treatment facility. If you look at the GIS data, the properties are located south and southeast of Costco, bordered by the Hammond alignment to the north, 9th Avenue to the west, highway 101 to the south and a housing subdivision that fronts on 7th Avenue to the east.

The facilities will be single story and there will be surface parking. However, a traffic study will be required, and the Tribe is describing an operational model that will comprise of a mix of drive-up patients and bussed-in patients for daily suboxone dosing, that occurs early in the am to 2 pm in the afternoon.

The project has gotten some press and is starting to generate interest, including neighborhood interest.

We had a pre-pre application meeting with the Tribe and their design team yesterday to talk generalities. The design team is headed by Greg Belding and Suzanne Pontecorvo of Rice Fergus Miller Architects.

I indicated to them that they would have to at the very least, dedicate 30' of right of way along their north border, which is at the "latitude" of Hammond Street.

I wish I had more visuals to share, but the project is still in the early planning stages.

Thanks,

Dave

There was an article in the paper the other day about the Behavioral Health Clinic by Jamestown...Not sure we can point them in a direction other than Jamestown or city planning.

Sergeant,

Do you know who I can reach out to to locate any kind of research the city did regarding the incoming methadone clinic? There are a lot of people upset with this decision and I know Jamestown is part of it but I don't know where to find information.

Besides referring them to attend city council meetings it would be nice to point towards some real documents/info.

S.S. Madison,

Do you know who I can reach out to in order to locate any kind of research the city did regarding the incoming methadone clinic? There are a lot of people upset with this decision and I know Jamestown is part of it but I don't know where to find information. The research/ info would be for myself to know what is going on (not to share with the public etc).
