To: Sequim City Planning Department & Sequim City Council:

I formally request a 1 year extension to the preliminary plat approval for the Bell Hill Estates Subdivision (SUB17-001) as allowed by Sequim Municipal Code. Once the extension is approved, the developer intends to break ground immediately to bring much needed housing inventory to the City of Sequim. As you know, one of the keys to creating housing affordability is inventory. We are excited to do our part to deliver the dream of homeownership. Please feel free to contact me with any questions.
