Travis,
Please see the email from Waste Connections stating they will collect along the curb on Hendrickson.
Thanks,
Caleb

Good evening Caleb,

I spoke w/my site manager and he stated this is usually required when you plan on building an enclosure for either a compactor or commercial dumpsters. There is no reason we would not be able to provide service for residential cans placed out on Hendrickson.

Please let me know if you have any questions or need any additional information.

Thank you,

Samantha Davis | Office Manager

Subject: Trash Collection Letter

Hi Samantha,

Attached is the Plan Review Letter from the City of Sequim for the proposed project of an 8 unit condo building.

The request for a letter from Waste Connections is comment P18.

Also attached is a rough site plan showing the driveway/building in red, and the collection area in green.

My proposal for this project shows individual containers that would be brought to the curb on the South side of Hendrickson.

Please let me know if you have any questions.

Thank you!

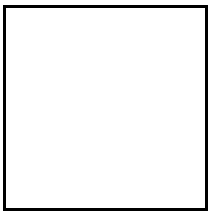

Caleb
