2015 International Building Code - Appendix J Grading – J103.2 Exemptions

(for the full text of the Code, please see <https://codes.iccsafe.org/>)

A grading *permit* shall not be required for the following:

1. Grading in an isolated, self-contained area, provided there is no danger to the public and that such grading will not adversely affect adjoining properties.
2. Excavation for construction of a structure permitted under this code.
3. Cemetery graves.
4. Refuse disposal sites controlled by other regulations.
5. Excavations for wells, or trenches for utilities.
6. Mining, quarrying, excavating, processing or stockpiling rock, sand, gravel, aggregate or clay controlled by other regulations, provided such operations do not affect the lateral support of, or significantly increase stresses in, soil on adjoining properties.
7. Exploratory excavations performed under the direction of a **registered design professional**.

Exemption for the *permit* requirements of this appendix shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this code or any other laws or ordinances of this jurisdiction.

GRADING PERMIT SUBMITTAL CHECKLIST

Please provide electronic submittals on a flash drive, or email to BuildingDept@SequimWA.gov.

(If submittal is provided in hard copy (paper) format, please provide 1 copy.)

1. Completed, signed application and fee (\$15.00)
2. Scaled grading plan showing North arrow, and:
 - a. Legal description and parcel number (or tax number).
 - b. Property lines and dimensions with contour lines.
 - c. Proposed road access points.
 - d. Dimensions and depth of cut and fill.
 - e. Street names and any easements or vacations.
 - f. Location and diameter of existing trees.
 - g. Temporary erosion and sediment control measures (TESC).
 - h. Limits of vegetation clearing.
 - i. If storing overburden on site, indicate location of the store material on your site plan. If removing to another location, indicate the proposed location.
 - j. If applicable, delineated critical area boundaries and buffers.
 - k. If applicable, existing or proposed septic system location.
 - l. If applicable, location of any buildings or structures on the lot where work is to be performed and the location of any buildings or structures within 15 feet of the proposed grading.
 - m. Existing and finished grade for subject and adjoining properties in contour intervals of sufficient clarity to indicate nature and extent of the work, showing compliance with International Building Code Appendix J, Grading.
3. Copy of survey if available
4. Geotechnical report (when required)
5. Liquefaction study (when required)
